Email : info@7-mars.com

Showroom Address : 442/2 Chan Road , Thung Watdon Sathon Bangkok Thailand 10120

### GVS Since 1999

Established in 1999, GVS GROUP has been devoting itself into R&D of KNX building control system as well as video door phone solution. With its highlighted capability in display (CRT/TFT) development and manufacture, the group has long been in the first rankings of suppliers for both KNX building control system as well as IP/2-Wire Video Door Phone system. As the FIRST native BOARD MEMBER of KNX CHINA and first-ranking VDP supplier, GVS GROUP will continuously contribute to both industries in coming decades ...

### Video Door Phone Pathfinder

Dated back to 1999, GVS started with audio door phone module business, later switched from audio to video door phone module (CRT type) then continuously into TFT module; for integrated VDP, GVS started with analog system and now developed IP system with perfect integrated home automation functions. All in all, GVS has never stopped on the way of exploration and innovation.

As a key supplier for display modules, GVS has supported 50% of the video door phone business globally, which makes GVS one of the biggest suppliers in this business line.

### Professional Manufactory

Facility & Equipment: modern factory with SMT, plug-in, assembling, testing lines; QC, electrical safety labs, high-low temperature rooms;

Standard & Certificate: ISO90001, QC080000, RoHS, CE, KNX

Production Capacity (annually): TFT 3M pcs, TFT display module 1.5M pcs, KNX device 10M pcs

### KNX Advocator

#### In 1999

GVS was established

#### In 2008

GVS become the first Chinese KNX member in China.

#### In 2011

GVS KNX Training Center established with the first KNX training course held. (Over 400 KNX Partners )

#### In 2013

Initiator & Chairman of the drafting team for IEEE1888.4 Green Smart Home & Building Control Network Protocol Standard.

#### In 2015

GVS become the first native board member of KNX China..

#### In 2017

GVS officially enter the New OTC Market and become a listed company.

#### In 2018

GVS become the first native rotating chairman of KNX CHINA.

## KNX Building Control System

### Home Automation Solution

### Hotel Automation Solution

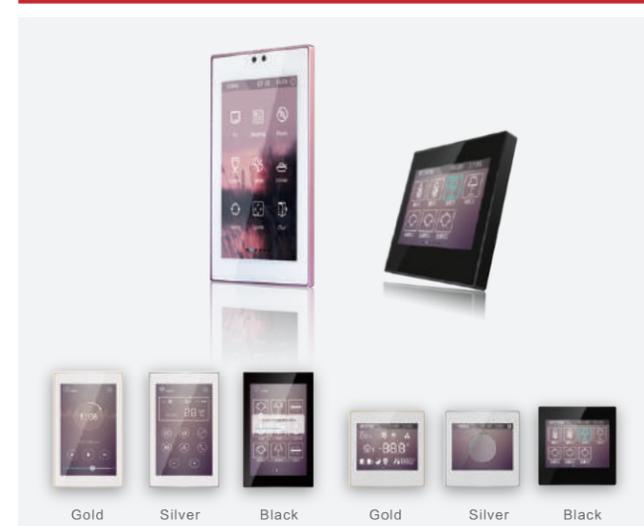

**NEW!**

## Push Button Sensor Plus, 1/2/3/4-Gang

1-Gang, CHPLE-02/02.x.00    3-Gang, CHPLE-06/02.x.00  
 2-Gang, CHPLE-04/02.x.00    4-Gang, CHPLE-08/02.x.00  
 (x=1, Shiny Finish; x=2, Matt Finish)

**Function:**

- 100% fits 55mm systems:
- GIRA Standard 55, E2, E22, Event, Esprit    - JUNG Aplus, Acreation, A500, AS500
- MERTEN 1M, M-Plan, M-Pure, M-Smart    - BERKER B3, B7, S1
- Push Buttons are adjustable for 1 or 2 button operation
- Built-in temperature sensor, RGB status LED indication
- Adjustable for button push length, NO or NC contact operation
- Short/long operation for KNX functions of lighting, scene control, shutter etc.
- Centered title block with cover film for customized marking
- Supporting ring included for installation
- Integrated bus coupling unit, 3 years' warranty Matt & Shiny finish available

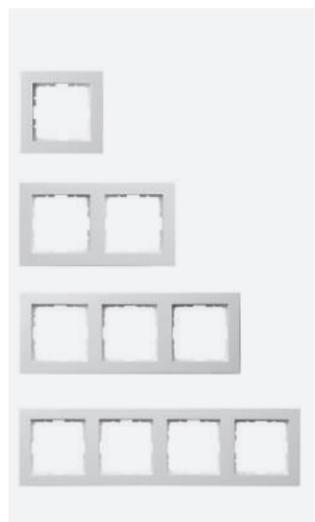

**NEW!**

## KNX 5" Touch Panel (Slim) KNX 3.5" Touch Panel (Slim)

**Function:**

- Capacitive color touch screen with all KNX functions
- Built-in temperature sensor
- Highly customizable with pages, icons and background
- Fast and easy update with SD card
- Cyclical weekly timing function
- Independent and flexible programming software

## Plastic Frame 1-fold

Dimension: 80\*80mm

**Function:**

- 100% fits 55mm systems:
- K-BUS Push Button Plus
- GIRA Standard 55, E2, Esprit
- JUNG Aplus, A500, AS500
- MERTEN 1M, M-Series
- BERKER B3, B7, S1

## Plastic Frame 3-fold

Dimension: 80\*151mm

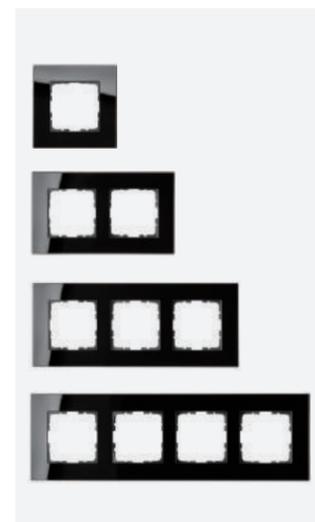

## Plastic Frame 3-fold

Dimension: 80\*222mm

## Plastic Frame 4-fold

Dimension: 80\*293mm

White/Black

## Glass Frame 1-fold

Dimension: 95\*95mm

**Function:**

- 100% fits 55mm systems:
- K-BUS Push Buttons Plus
- GIRA Standard 55, E2, Esprit
- JUNG Aplus, A500, AS500
- MERTEN 1M, M-Series
- BERKER B3, B7, S1

## Glass Frame 2-fold

Dimension: 95\*166mm

## Glass Frame 3-fold

Dimension: 95\*237mm

## Glass Frame 4-fold

Dimension: 95\*308mm

White/Black

## SCHUKO Socket Outlet Series

100% fits 55mm system  
 16A AC, 250V, DIN 49440

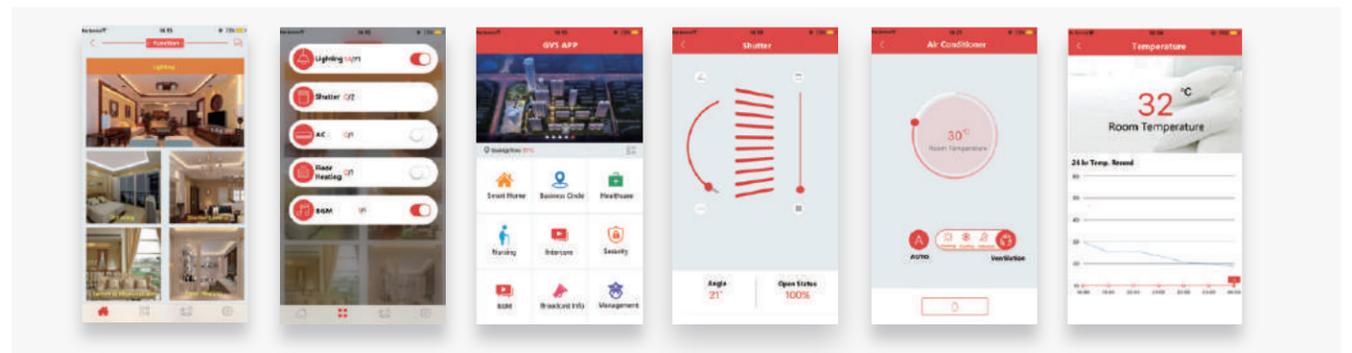

**NEW!**

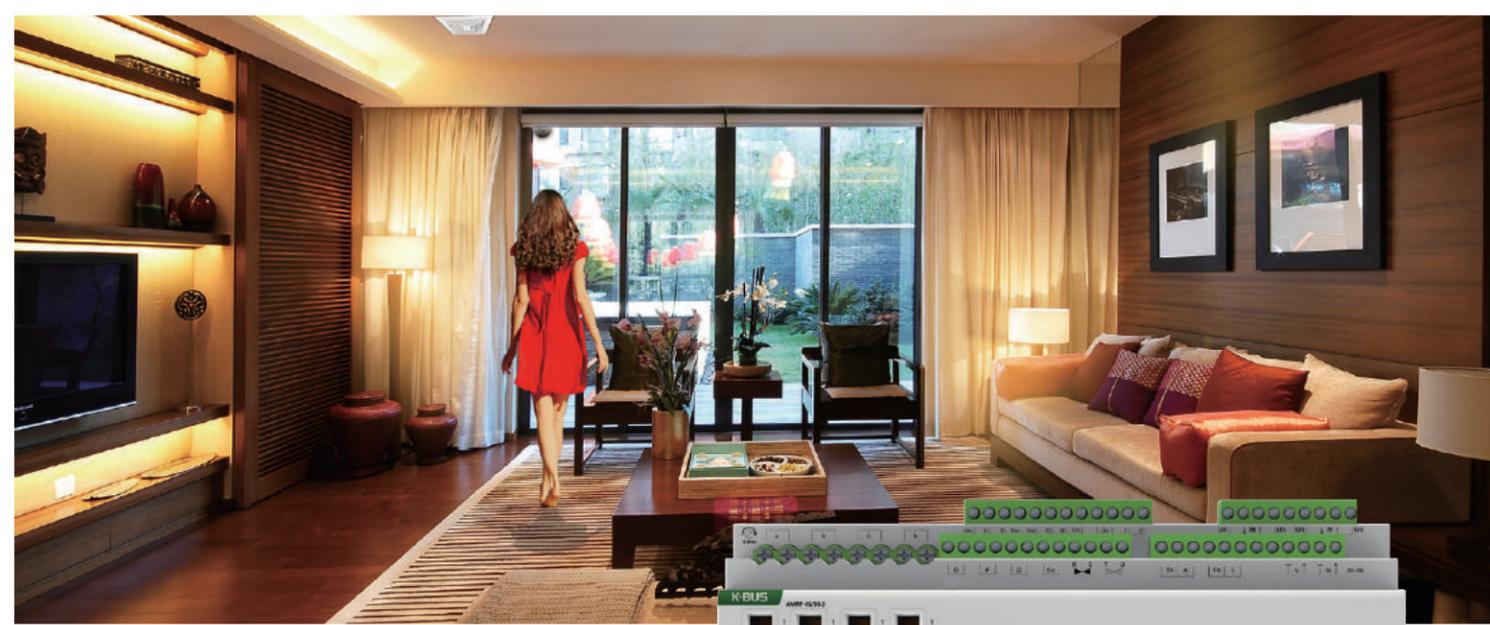

## easyControl for Phone/Tablet

**Function:**

- Support max. 5 channels for data conversion between KNX and RS485/232
- Built-in Apache server and SQL database
- Support server login via web browser
- Support online programming
- App available for remote control via cloud service
- All typical KNX functions supported

Screenshots from easyControl: IOS/Android

**NEW!**

### Room Controller Premium

AMRP-41/00.2

**Function:**

- 10 folds of switch actuator
- 2 folds of 1-10v dimming actuator, can be used as 2 folds of switch actuator
- 2 folds of shutter actuator, can be used as 4 folds of switch actuator
- 1 fold of fancoil actuator, can be used as 3 folds of switch actuator

- 20 folds of dry contact
- KNX/IP interface
- KNX/RS485 converter

Switch

Lighting

Curtain

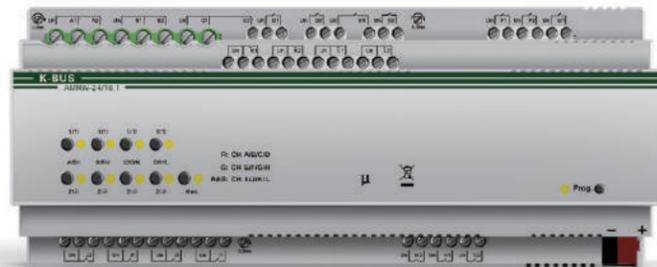

Air Conditioner

**NEW!**

### 24 Folds Switch Actuator/ 12 Folds Shutter Actuator, 10A

AMRW-24/10.1

**Function:**

- Max. 24 folds of switch actuator, OR 12 folds of shutter actuator
- Switch Actuator with 10 A rated current, C-load Shutter Actuator with 1KW rated power of electric motor
- Manual operation, display of the status of each channel
- Adjustable behavior in case of bus voltage failure or recovery
- Max. 8 scene function for each channel, operation hour counter
- External 2 logic function of AND,OR,XOR,GATE
- Programmed through ETS, with all standard switch/shutter actuator function

Picture	Name/Mode No.	Installation/ Dimension	Function

Video Door Phone System  
P.013 - P.019

IP System Briefing

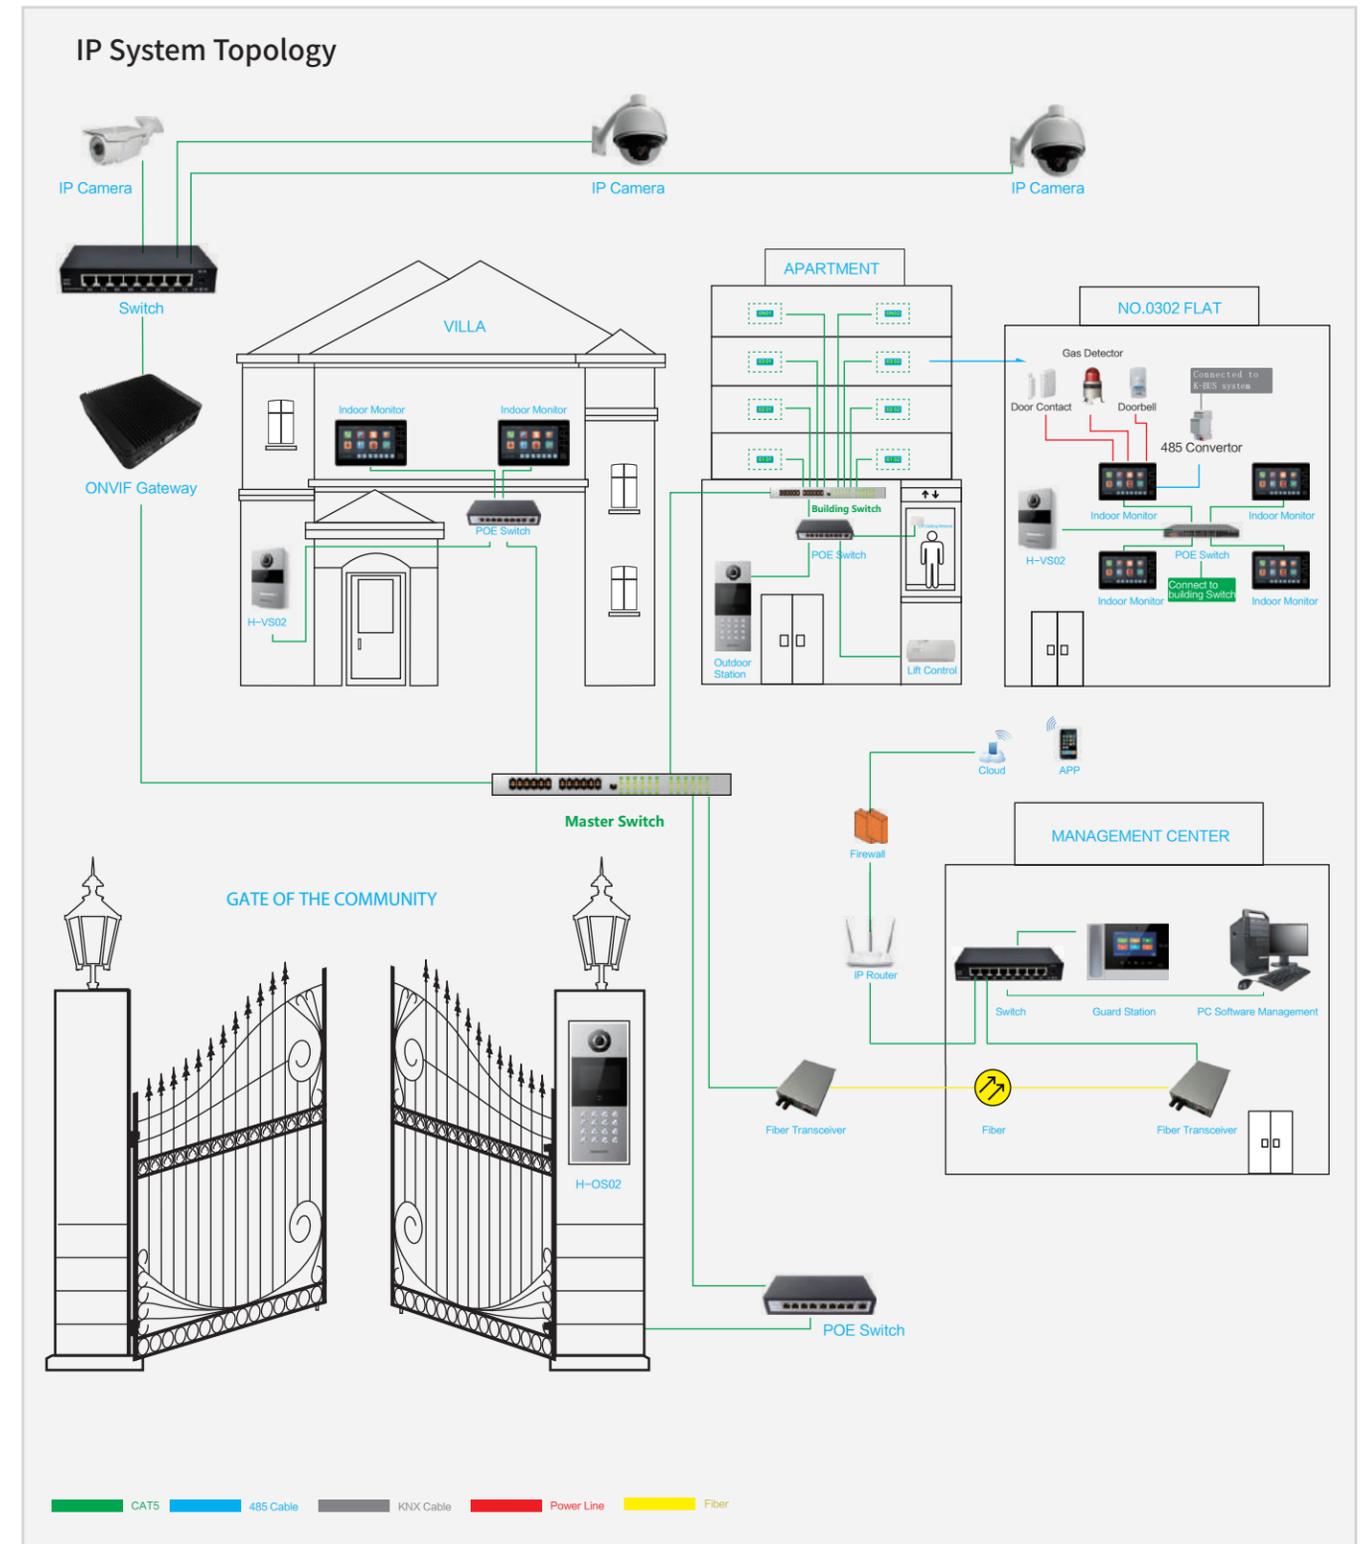

FAQ: Where to use?

Answer: office building, high-rise residential apartment, tower residential building and villa etc.

**H Series video door phone system**

Is a full digital video door phone solution based on TCP/IP protocol. It supports digital video intercom, information broadcast, multi-channel calling, room-to-room intercom, alarm, home automation etc. The solution provides clear and fluent video intercom service and security alarm, which enhances the community security and safety. Based on different demands, the system can be set to support various functions. Support to 24V PoE power supply also makes the system more economic and easy-to-use.

H-IS06-G

**10.1 Inch Indoor Monitor**

- 10.1inch glass touch screen design
- 24V PoE Power Supply
- Automatic photo recording of visitors
- Support intercommunication function
- Call divert to smart phone
- Easy GUI customization

White H-IS11-W

Silver H-IS11-S

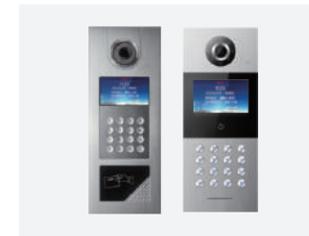

Black H-IS07-B

**4.3 Inch Indoor Monitor**

- Working voltage: DC 24V (support POE)
- Protocol: Standard TCP/IP
- 4.3inch TFT with advanced GUI
- Automatic photo capture
- Support intercommunication function
- Sensitive touch button control

**7 Inch Indoor Monitor**

- Working voltage: DC 24V (support POE)
- 7 inch capacitive touch with advanced GUI
- Automatic photo recording of visitors
- Support intercommunication function
- Alarm settings with 8 defense zones
- Support connecting upto 255 CCTV cameras
- Support emergency SOS calling to guard stations
- Support text and photo receiving
- Support KNX home automation connection
- Support customized Gui design

H-OS01 H-OS02

**4.3 Inch Gate Outdoor Station**

- Aluminum housing
- Display: 4.3inch TFT with advanced GUI
- Working voltage: DC 24V (support POE)
- Card Supported: IC/ID card
- Support intercommunication function
- Name list Management
- Wi-Fi Connection
- IPX5 waterproof

Guard Station

**7 Inch Guard Station (management)**

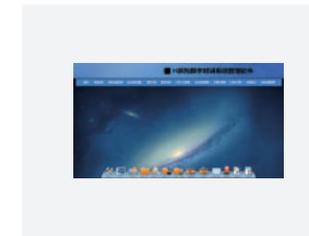

- Support connecting up to 255 CCTV cameras
- Card management function
- Alarm and SOS alert
- Support ONE-KEY release( to open all doors)

H-VS02

**Mini Outdoor Station**

- Aluminum housing
- Working voltage: DC 24V (support POE)
- Card Supported: IC card
- Support intercommunication function
- Support tamper alarm
- IPX4 waterproof

PC Software

**PC Software**

- System configuration and management
- Residents information and card management
- Text and photo broadcast
- Database management

H-IS02-W H-IS02-B

IP Camera Gateway

**IP Camera Gateway**

- Support ONVIF IP camera
- Support 5 users' surveillance at the same time

H-LC02

**Lift Control Module**

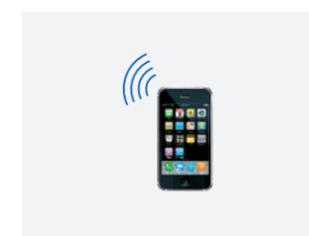

- Working Voltage: DC 24V (support PoE)
- RS485 protocol output

H-LC01

**Lift Calling Module**

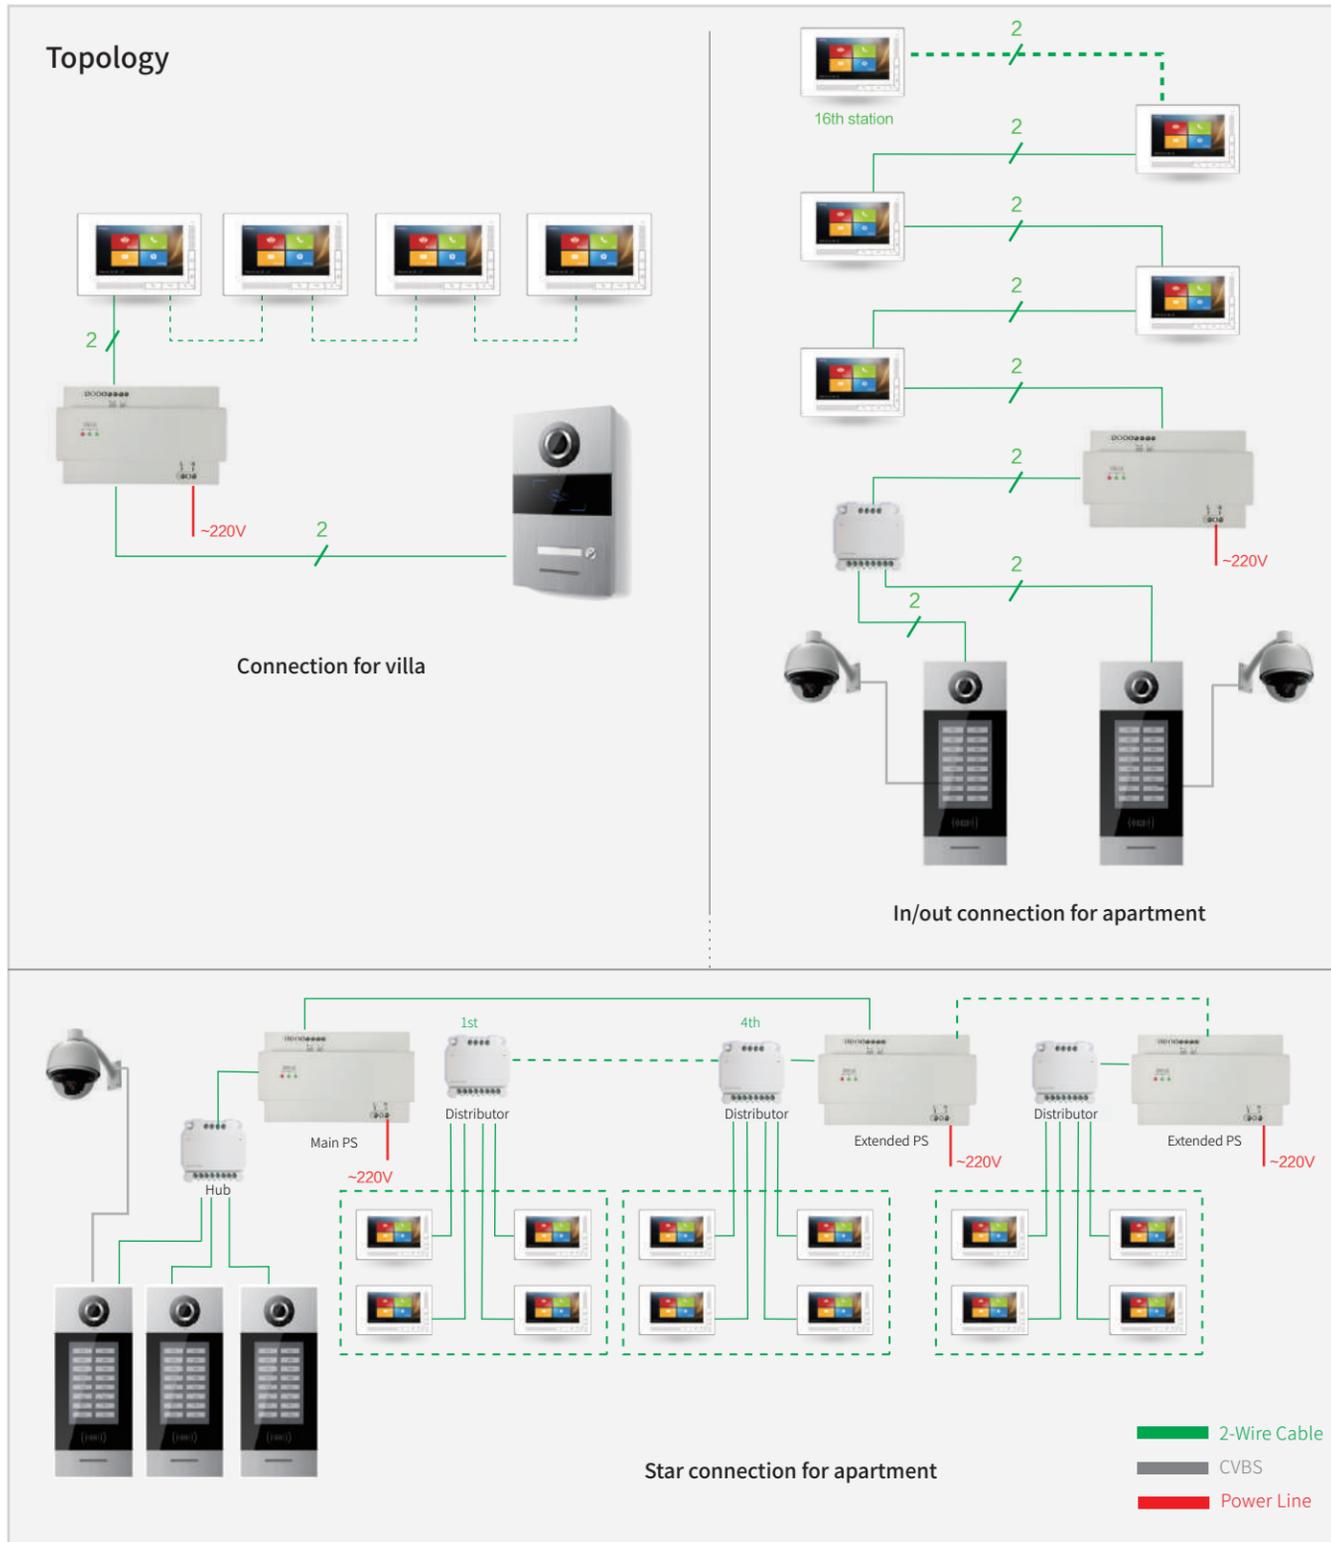

- Working Voltage: DC 24V (support PoE)
- Video calling to Guard unit

APP

**APP**

- Support video intercom and unlock
- Support screenshot and video record
- Support connect with cloud server

**T Series video door phone system**

Is developed based on 2-wire analog video door phone solution. It supports video intercom, intercom between residences, access control etc. All devices in the system are connected by non-polarity 2-wire cable. The system applies in office building, multi-story residential building, apartment and villa.

**System Capacity**

- Max 64 indoor monitor
- Max 4 outdoor station
- Max 3 touch outdoor station
- Max 200 meters from outdoor station to the last monitor

T-IS03-W

T-IS01-W

**7inch Indoor Monitor**

- 7inch glass touch screen design
- Video call, monitor and unlock
- Max.4 indoor monitors in 1 apartment
- TF card extended(2-32G, class 10 preferred)
- Support screenshot and video record
- Support intercommunication

T-IS04

T-IS04

**4.3inch Indoor Monitor**

- 4.3inch touch key design
- Video intercommunication, monitor and unlock
- Room number configured by software

## Two-wire Video Door Phone

T-OS2

T-OS01 T-OS03 T-OS04

### 7inch Touch Outdoor Station

- Support 2-wire centralized power supply(or independent power supply )
- 7inch capacitive touch screen design
- Support CCTV surveillance by built-in interface
- Easy GUI customization
- Name lable revise through 2-wire bus
- IC Card reader

### Outdoor Station (Aluminium faceplate/button )

- IC card reader
- Support unlock button interface
- Support white led light supplement
- IPX4 waterproof

T-PS01

T-PS02

T-VD

T-OD

### Power Supply

- Working voltage:AC100V~240V
- Output voltage:DC30V
- Support system power management
- 16 indoor monitors maximum

### Extended Power Supply

- Working voltage:AC100V~240V
- Output voltage:DC30V
- Support signal amplification
- 16 indoor monitors maximum

### Distributor

- 2-wire centralized power supply
- 4 indoor monitors maximum

### Hub

- 2-wire centralized power supply
- 4 outdoor stations input maximum

# Featured Project

Classic GVS project worldwide  
P. 021 - P. 022

## Featured Project

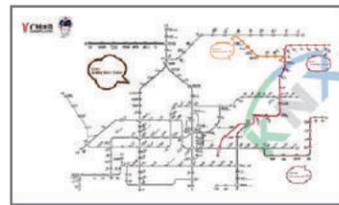

### Digital Broadcast Hall of the Imperial Palace Museum Beijing, China

By using K-BUS solution, the old Imperial Palace Museum has come to life again after so many years quietness, with an integrated solution including lighting, shutter, background music, security, the museum and the meeting hall has realized the modern functions and automation easily.

### Guangzhou Metro System Guangzhou, China

GVS has won the KNX automation part in the latest THREE Guangzhou new lines, line #13, #14, #21 with 40 stations. The whole project will be finished within December 2018 (Line #13 has been finished at the end of 2017). Once the whole project is finished, it will become the largest KNX automation system in the category of metro system worldwide.

Hangzhou International Airport Hangzhou, China

CCB He'nan Headquarter Branch Zhengzhou, China

Yun Shan Shi Yi Community Guangzhou, China

## Featured Project

### Résidence Marcel Marlier Tournai, Belgium

### Falkensteiner Schlosshotel Velden Austria

### Fairmont Abu Dhabi Hotel Abu Dhabi, UAE

### Seri Pilmoor 110 Villas Kuala Lumpur, Malaysia

### KL Eco City Kuala Lumpur, Malaysia

As special business & residential complex, the KL Eco City in Malaysia has planned quite environmentally friendly systems, among which KNX is one of the most important. Over a thousand and half pcs of K-BUS devices have contributed to the automation of the building, helping the project win the first GBI Gold Medal in Malaysia.

### White Box Villa Tehran, Iran

The villa is located in Iran's first peak Damawand, the Spirit Dynamic Hollow building blocks private luxury villas and visual sound intelligent lights. The omni-directional combination of light, scene and HVAC control system makes the project win the 2016 annual American Design Award.
